About Cassava Sciences, Inc.

Cassava Sciences is a clinical-stage biotechnology company based in Austin, Texas. Our mission is to detect and treat neurodegenerative diseases, such as Alzheimer's disease. Cassava Sciences is evaluating its lead drug candidate, oral simufilam, for Alzheimer's disease dementia in two global, ongoing Phase 3 clinical studies. Our novel science is based on stabilizing—but not removing—a critical protein in the brain. Our product candidates have not been approved by any regulatory authority, and their safety or efficacy have not been established in humans.
